

AK 4112 MEDIUM RUST DEPOSIT

The ideal product to create special rust effects on your models. This is due to the especially designed enamel paint which, when dry has a light surface texture. Perfect to obtain that crusted rust effect.

Use this product to achieve a crusted rust effect on your model.

Shake very well before use, and apply straight from the jar in the desired areas and let it dry for 10-15 minutes.

Take a brush moist with thinner and blend in the paint until satisfied with the result.

Due to the very fine texture of the paint, you can achieve a realistic crusted rust effect. We recommend you work in layers for the best results.

Apply the Crusted Rust deposit in one or more layers in the desired areas of your model.

After the paint is almost dry, use a flat moist brush and push the paint in place.

Because of the light texture of the paint you can easily achieve crusted rust effects.

This product has numerous possibilities depending on your taste and the effects you want to achieve. The intensity depends on the number of layers you apply.
